The International Ballet Exchange is a non-profit organization dedicated to providing Philadelphia area students with ballet training and performance experience with professional dancers schooled in the Russian technique. IBE has placed a ballet residency program Northeast High School and Blaine Elementary School. We also provide scholarships to needy, talented students. It is part of our mission to bring high quality ballet to inner city children. This very special performance will include students from the residency program along with students studying privately at Wissahickon Dance Academy.
